Named 'Life of the Party' in French, this sofa is glamour personified! Couture detail, a contemporary curving silhouette and fashionable upholstery define this eye-catching sofa. It's upholstered in vibrant emerald green velvet with plush pillows in contrasting hues of midnight and a watercolor floral. A curving inset panel of black lacquer laces up the arms and follows the silhouette around the sofa's top rail. An interlocking brass inlay adds opulence and yet another layer of architectural interest to this luxury detail. To complete this amazing sofa's design story, a stitch design in the same graceful interlocking pattern completes this compelling sofa's silhouette!
